

Welcome to our high school! Over the past four years, we have experienced growth in all areas of our high school program as we have partnered with families in the education of their children.

Spiritually, we have witnessed God working in the lives of our students as they have committed their lives to Christ, served on mission teams, and felt the call to ministry.

Academically, we continually evaluate our curriculum and the courses we offer so that we can meet the ever changing needs of our students and the current trends in education. One way we have done so is through the addition of offering our students the opportunity to earn college credit on our campus through the College Credit Plus program.

Athletically, several of our teams have had their best seasons of competition, including a league championship in basketball and district semi-finalists in soccer.

Musically, our marching and concert bands have had record performances in state level competitions.

Artistically, our students have had their artwork showcased at the Governor's Art Show and the Association of Christian Schools International Art Festival.

Physically, we have continued to see growth in the number of students who are enrolling in our high school program while maintaining our commitment to smaller class sizes and the individualized attention that our staff is able to give our students.

We recognize that the four years a student spends in high school are pivotal years in their development and preparation for life. Because of this, we are intentional in the relationships we build and the opportunities we provide to our students. It's through those relationships and opportunities that we are able to fulfill our mission of cultivating, transforming and preparing students to be Christian leaders who impact their world.

Thank you for partnering with us in the education of your student!

Mrs. Rebecca Jeffries  
High School Principal
