

Welcome to our intermediate school!

These important years will be ones of significant development for your child, and our faculty and staff are committed to being a part of the support system that will challenge and encourage their academic, emotional, physical and spiritual growth.

In addition to providing excellent academic preparation for your child's next steps, our core classes are built around biblically integrated instruction which will help your child develop a worldview that is centered on the principles in God's Word. Most importantly, it is our prayer that your child will grow in their personal relationship with Christ as they become Christian leaders who impact their world.

Thank you for the privilege of partnering with you in your child's education.

Ms. Debbie Edwards
Intermediate School Principal
